

smart Alitherm Heritage - The "Alternative to Steel"

Our Slimmest Window

The Smart Alitherm Heritage window is designed to offer a modern aluminium replacement to the traditional steel window

The window features signature slim sight lines and attractive contours.

The similarity is so close, that the window will often satisfy the exacting requirements of 'Heritage' restoration.

Standard Specification:

- Slimline profile - one of the slimmest on the market
- Thermal break - for thermal performance - exceeding Part L requirements
- High security locking
- Available with externally glazed fixed panes or internally glazed with dummy sashes
- Single and dual RAL colour options

Full range of RAL Colours

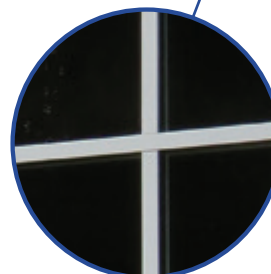

Ideal replacement for traditional steel windows

Astragal Bar option

Alitherm Heritage sash and frame - 58mm

ALUMINIUM FLAT EXTERNAL BAR

- 25mm flat surface mounted bar
- Colour matched
- Can be fitted to any of the 'Choices' Aluminium range
